Arrangements have been made for the establishment of a supply depot at Folsom dock, and one in another section from which the army will distribute supplies in connection with the city authorities.

Denver Sends 12 Cars of Supplies.

Denver, April 23.—A train of 12 cars loaded with clothing, provisions, etc., was dispatched to San Francisco Friday night via the Union Pacific. The train was given the right of way, and should arrive in Oakland Monday. Another relief train will leave Saturday night. Supplies are being collected in other towns and are forwarded direct.

Merchants Send Flour.

Oklahoma City, April 23.—The merchants of this city started two carloads of flour for San Francisco Friday night and two more followed Saturday night.

Hearst Sends Supplies.

Salt Lake City, April 23.—At 10 p. m. Friday a local bank received orders from W. R. Hearst to expend $7,500 for supplies for San Francisco, and within three hours four cars of provisions were going west as fast as steam could carry them. Numerous refugees are coming to Salt Lake, and each has a tale of horror to relate.

Texas Gives $100,000.

Houston, Tex., April 23.—Texans are giving to the San Francisco sufferers with a will. In Houston, the Post has already raised $7,300, and other funds will swell the total to $10,000, with further contributions to come. General calls for help has been made by secret societies and several thousand dollars have already been sent. The city of Galveston has wired $1,000, and has raised $1,500 toward a fund of $10,000. Every city and most of the towns have raised funds, and reports show that Texans have given nearly $100,000 to the sufferers.

Provisions From Los Angeles.

Los Angeles, Calif., April 23.—Another relief train of 17 cars loaded with miscellaneous provisions for the San Francisco sufferers, left Los Angeles Friday night. This is the second train out from here.

London Sends $10,000.

London, April 23.—Ten thousand dollars has been cabled to the Red Cross at Washington as the first installment of the fund for the suffering of San Francisco.

DANGER PAST, SAYS MAYOR

Thousands of Homeless Are Being Given Aid.

WATER NOW AVAILABLE

HOPE DAWNS AFRESH IN STRICKEN CITY AS CONFLAGRATION IS NOW UNDER CONTROL—ALL PUBLIC RECORDS ARE SAFE. FORT MAYSON SAVED BY SAILORS—CITY UNDER MARTIAL LAW—TRAIN LOADS OF FOOD SUPPLIES BEING RUSHED TO STRICKEN CITY OF 'FRISCO

San Francisco, April 23.—According to latest reports the ferry building is safe from destruction by fire.

Efforts of the men under General Caster and of the grain sheds and that of the fire tugs and steamers, will succeed in checking the fire near the Lombard street slips.

In other directions the fire is now completely under control.

Mayor Schmitz and General Funston have established headquarters at Fort Mason, which was saved by some desperate work on the part of a body of sailors from the warship Chicago.

The records in the hall of records have been unharmed, which will prevent any tangle in titles.

GEN. FREDERICK FUNSTON,

Who Is Directing Gigantic Relief Work in Stricken City.

San Francisco, April 23.—For the first time in its history, San Francisco has had its taste of martial law.

When darkness fell upon the desolated city, every inhabitant of the houses that were left standing, the survivors of the terrible calamity cooking their suppers on fires built in front of their houses. The wind fanned many of these fires into nasty blazes, and for a time it looked as if many new fires would be started, but police orders were issued that all fires must be put out, and with a score of assistants and soldiers, the building of fires in front of houses was summarily suppressed.

In places where persons lit their lights in defiance of orders, the police and soldiers extinguished them. The exception was the hospitals. Soldiers patrolled the street, and persons going about were required to have a written permit from the chief of police. Mayor Schmitz has issued the following proclamation, which citizens are instructed to observe:

"Do not be afraid of famine. There will be abundance of food supplied. Do not use any water except for drinking and cooking purposes. Do not light any fires in houses, stoves or fireplaces. Do not use any house closets under any circumstances, but dig earth closets in yards or vacant lots, using, if possible, chloride of lime, or smoke, or any other disinfectant. This is of the greatest importance concerning the health of sufferers."

Temporary Structures To Be Erected.

Chairman Marcel Cerf, of the committee for refugees and homeless, says that temporary structures will be erected in Golden Gate park for the protection for the homeless at once.

Major Mayer, of the United States army, is now laying out a sanitary camp at this point, work on which will be rushed as rapidly as lumber can be secured. The camp will be under the supervision of an officer of the engineer corps of the United States army and the chief of the army medical staff will be in charge of it as sanitary officer.

The conditions among the homeless in the park, it was reported by Chairman Cerf, were excellent, but it was feared there would be considerable suffering in the mission district where the committee has not been able to reach all the people. A sub-committee has been appointed to impress all vacant buildings, and all deserted houses that after examination should prove to be safe.

"Alameda has room for 3,000 people," said Mr. Cerf, "and Fresno telegraphs that it wished to provide for 3,000 and asked that that number be sent, for which the Southern Pacific would furnish transportation. Other cities nearby have offered further assistance."

THE CHRONICLE BUILDING.

Home of the Great Pacific Coast Newspaper Which Lies in Ashes.

The local manager of the Standard Oil company says that Richmond could take care of 500 and that he would transport them Saturday.

It was stated on authority Friday night that the Merchants' Exchange, Fairmount hotel and Monadnock building would be open for public offices. All the remaining buildings have been carefully examined by expert architects, who have pronounced their frames and foundation to be absolutely safe. All three buildings have been burned to a certain extent, but the fire in no way caused them to be a menace to life and safety.

Mayor Schmitz has sent a letter to the mayor of Los Angeles, Sacramento, Portland, Seattle and Salt Lake, asking that blankets, cots and bedding, the need of which is imperative, be shipped immediately.

SPRECKLES' HOUSE IN 'FRISCO.

This Magnificent Mansion Was Destroyed in the Catastrophe.

Gen. Funston Reports.

Washington, April 23.—The following dispatch from General Funston regarding conditions at San Francisco came to the war department at 2:40 o'clock Saturday morning. It was sent from the naval training station:

"Fire is making no progress to the west from Van Ness avenue. West wind of considerable force now beginning. Indications are now that all of the city south of Van Ness avenue and north of the bay, will be destroyed. Some considerable apprehension is felt for the post of Fort Mason, but it is believed we can save it. The weather continues fine and warm; practically no suffering from cold. It will be impossible to at once establish proper sanitary conditions. Much sickness must, necessarily, be expected. If the city to the west now standing remains intact, there are many good buildings that can be used as hospitals. The water supply is encouraging. The Spring Valley water people believe they can deliver from 10 to 12 million gallons daily. This, with other sources not mentioned will prevent a water famine."

General Bell, the chief of staff of the army, to whom the dispatch was addressed, said he thought the words of General Funston, "South of Van Ness avenue," should read "east of Van Ness avenue," as that thoroughfare runs north and south.

Warships Fighting Flames.

Washington, April 23.—The war department has received the following Western Union bulletin, dated San Francisco, 5 o'clock, Saturady morning:

"It is somewhat foggy this morning with westerly winds blowing. Condition grows worse. Accommodations in Oakland are at a premium. Those in the parks will suffer until they can get into houses. I think there are plenty of flats for rent, but the earthquake put them in bad shape. Fire worried us last night by spurting up at times, and may get away from the firemen at any moment, and this will endanger everything on the water front, that is the sheds and the warehouses.

"There are left probably fifteen, and they are of the poorest kind. There is no immediate danger from fire. Several warships and tugs are pouring water from the bay on the flames which are quite a distance from the ferry building, where our office is located. The superintendent of the ferry building tells us that the building is now safe, and there is no danger from fire."

SHIPS WILL PLY OCMULGEE.

Macon Chamber of Commerce Wins Its Fight.

Macon, Ga., April 23.—Steady planning of the navigation committee of the chamber of commerce has resulted in quite a general interest among boat owners of Brunswick and points between here and that city, and within a short time all details of arrangements with the business men here will be completed so that when steamers come they will find ready business.

Within the next month, at least, one company will be engaged in shipping over the Ocmulgee from this city to the sea. Other boat owners have also taken steps to begin traffic and agreements are now being entered into between the busines men and the steamer owners.

A number of communications from several concerns reveals the fact that people along the river have received the announcement of a revival of river traffic with considerable interest, and every is being made to secure the initial trip as soon as possible.

Alleged Imposter Arrested.

Mobile, Ala., April 23.—In the arrest here Saturday of D. E. Smith, who claims to be a surgeon in the United States navy, government officials believe that they have affected the capture of an imposter who has been swindling the Greeks throughout the south under a pretense of getting them employment in the hospital service upon payment of $50.

Stone Appointed Judge.

Atlanta, Ga., April 23.—J. H. Stone, a veteran and popular member of the fourth estate, has been appointed the judge of the county court of Grady by Governor Terrell.

THIRTEEN SHOCKS OF EARTH ARE FELT

Moscow and Java Feel Earthquake.

CLEVELAND IS ALSO SHOCKED

Several Buildings Are Damaged at Poggibonsi, Italy—Inhabitants of Town Were Panic-Stricken—Not Known Whehter Siena Was Damaged.

Rome, Italy, April 21.—1:45 p. m.—Thirteen earth shocks were felt in succession Saturday morning in the province of Siena, Tuscany.

Several buildings were damaged, including the city hall at Poggibonsi, 19 miles south of Florence. The inhabitants of Poggibonsi were panic-stricken. It is not yet known whether Siena was damaged.

Moscow, April 23.—Practically simultaneously with the San Francisco catastrophe, a slight shock was felt here. The seismograph in the Moscow university registered the disturbances almost to the hour, reckoning the difference in time.

The Hague, April 23.—The rumors which reached New York of the eruption of the volcano in the island of Krakatoa in the strait of Sunday, and of earth shocks in Java, appear to be unfounded.

Cleveland, April 23.—A shock felt in many parts of the city at noon Friday and supposed to have been an explosion, was a slight earthquake shock according to the microseismograph register at the college here.

Convicted of Forgery.

New York, April 23.—Sentences were passed Friday on three of the men convicted of forgery for the Norfolk and Western stock certificate swindle, in which bogus paper having a face value of hundreds of thousands of dollars, was circulated. T. C. P. Colney was sentenced to seven years and six months' imprisonment; Samuel J. Humphries to sixty years, and Douglas E. Smith to one year. Sentence was deferred on Charles Augustus Seton, the fourth man convicted in this case. He was, however, given an eight-year sentence for grand larceny in connection with the promotion of the Houston and Galveston interurban railway, a Texas corporation.

Oil Concern Will Be Reorganized.

Columbia, S. C., April 23.—The Independent Cotton Oil company, whose failure caused President Robert Keith Dargan, and several other suicides last year, is to be reorganized, the North Atlantic Cotton Oil company, of Darlington, being commissioned Saturday for this purpose, with Samuel S. Bupist and L. Edwin Gregory, of Charleston, as corporators. The capital is $850,000, 7,000 shares of which are common stock. The property has been thrown into bankruptcy, the upset price being $200,000. The old concern had a million paid up. Its several mills in the lower part of the state are now idle.

Will Rebuild at Once.

New York, April 23.—That no time will be lost in the work of re-building San Francisco is suggested by the fact that the largest engineering and contracting firms are sending their most expert men to investigate the ruins with a view of discovering which form of construction best withstood the shock. The city will require about 250,000 tons of structural steel to repair her losses, and to erect new buildings, according to E. H. Garry, head of the United States Steel corporation and other authorities.

Emperor's Act Caused Comment.

Berlin, April 23.—Emperor William's promptness in cabling to President Roosevelt sympathies with the unfortunate people of San Francisco, has caused some comment in that section of the press, where the emperor's tardiness in conveying his condolences to the king of Italy was unfavorably mentioned. Newspaper organs, in accord with the government, however, point out the overwhelming nature of the California disaster has put the Vesuvius calamity in the shade.

GAINESVILLE PEOPLE ARE VERY GENEROUS

Between Citizens and Lodges Good Sum Will be Raised.

SYMPATHY FOR SUFFERERS

Elks Started the List With $100, Followed by Kirby Smith Chapter, U. D. C, and Now Ladies are Working For Help Among Citizens.

In compliance with a call, a special meeting of the Gainesville Board of Trade was held Monday afternoon, for the purpose of taking action in raising fonds for the relief of the unfortunate California sufferers from the recent earthquake and fires.

The meeting was presided over by Mayor W. R. Thomas, vice-president, in the absence of President W. G. Robinson, who explained its purpose. The meeting was well attended, as it was originally understood for what purpose it was to be held, and a great deal of feeling, interest and enthusiasm was manifested.

After some discussion, it was decided to appoint a committee of two energetic ladies, who had the interests of humanity at heart, for the purpose of soliciting subscriptions, and this honor fell unanimously to Mrs. Dr. J. F. McKinstry, Jr., and Miss Ida Burkhim.

But neither of the ladies had waited upon the action of the Board of Trade, for both had been earnestly at work in securing subscriptions. Representing Kirby Smith Chapter, United Daughters of the Confederacy, Mrs. McKinstry had already secured from members of ther Chapter $15, which was sent to Mrs. A. H. Voorheis, first vice-president of the National Division, U. D. C., at San Francisco, with a message of condolence to the members of the San Francisco Chapter, and requesting that the money be used as Kirby Smith's mite towards assisting the needy of that Chapter.

In the meantime Miss Burkhim, with a charitable generosity which is most commendable, has been at work on a list, which resulted in a liberal response from our citizens, who felt it a pleasant privilege to give whatever they could afford. Miss Burkhim reported to The Sun Monday night that she had received so far $138, with promise of more. The list will be published tomorrow.

A PROCLAMATION

By His Excellency, Napoleon B. Broward, Governor.

Whereas, A disaster unparalleled in the history of the United States has overtaken the State of California in the destruction by earthquake and fire on the morning of the 19th of April, of the city of San Francisco, the commercial metropolis of the Pacific Slope, and numerous other cities and towns of said State, which disaster has resulted in the destruction of hundreds of millions of dollars in property values and the loss of thousands of lives, and has left hundreds of thousands of unfortunate people stripped of their earthly possessions, without homes and suffering even for the necessities of life;

Now, therefore, I, Napoleon B. Broward, Governor of Florida, hereby issue this, my proclamation, calling upon the people of the State of Florida to promptly contribute of those stores with which Providence has blest them, in money, clothing and provisions, to the relief of the destitute and suffering people of our sister State.

And I especially call upon the mayors of the several municipalities in the State, the presidents of the boards of trade, and the ministers of all denominations, to take immediately such steps as may be necessary to direct local attention to the needs of the destitute people of California, so that immediate contributions can be made and placed in the hands of fit agents to be transmitted to the proper authorities in the State of California.

He that giveth quickly giveth twice.

Given under my hand and the Great Seal of the State, at Tallahassee, the capital, this 20th day of April, in the year of Our Lord, One Thousand Nine Hundred and Six, and the Independence of the United States, the One Hundred and Thirtieth.

N. B. BROWARD,
Governor of Florida.

By the Governor—Attest:
H. CLAY CRAWFORD,
Secretary of State.

THE STATE IS PROSPEROUS.

A Prominent Traveling Man Notes Progress Throughout Florida.

Among the traveling men who spent Monday in this city was W. L. Goodwyn of Richmond, the clever representative of the Richmond Paper Manufacturing Company.

Mr. Goodwyn has been a regular visitor to this State, coming four times a year, for the past six years, and is well acquainted, especially with the printing and newspaper fraternity, from one end of the State to the other.

He states that the commercial and other conditions everywhere are better and more encouraging than he has ever seen them. "Everybody seems to have money," he said, "with the result that trade in all lines is good, which naturally includes the newspaper and job printing plants. I am selling paper to many publishers in lots of from one hundred reams to a solid car now, where several years ago they considered a few bundles a good order. I am glad to see the newspapers prosper, for they are doing more comparatively for the upbuilding of the various communities in which they are published than all other enterprises combined.

"I am also glad to note the rapid improvement in Gainesville," Mr. Goodwyn continued. "I can remember my first trip to this city. It was only an ordinary country town at that time—and that has not been so many years ago; but I note with a great deal of pleasure the rapid general development, because I have always admired the city and those of its citizens whom I have been fortunate enough to meet."

Mr. Goodwyn is one of these clever, affable talkers whom it is a pleasure to meet, and we are all glad that he is impressed, for he will prove a "walking advertisement" for our city.

STROUSE IN JACKSONVILLE.

Delivered a Farewel Sermon to Large Congregation Sunday Night.

Dr. Clarence B. Strouse, who has been here for the past few days with the Abel Orchestra, left Sunday for Jacksonville, where Sunday night he delivered his farewell sermon of the season at the skating rink.

The Times-Union of Monday has the following to say regarding this meeting, which goes to show the prominence of this most gifted divine in that city, as well as everywhere else he has visited:

"Dr. Clarence B. Strouse was greeted by an immense audience at the skating rink last night. He had announced one week ago that he would return and deliver one more address to a Jacksonville audience, and the attendance plainly showed the appreciation and esteem of the people of Jacksonville for the gifted evangelist.

"The subject of his discourse last night was 'Man and the Universe, or One Moment After Death.' The sermon was a powerful one and made a profound impression on the vast audience. Dr. Strouse is a most magnetic speaker and he carried his audience with him last night in a manner that few public speakers ever succeed in doing.

"A feature of the service was the singing by the great choir that was organized during the two weeks' meetings conducted by Dr. Strouse in the First Presbyterian Church and the First Methodist Church.

"At the conclusion of the services Dr. Strouse shook hands with a large number of his friends and admirers. His parting was touching and it was with genuine regret that his hearers bade him farewell. He goes from here to New Orleans and will a little later go to Los Angeles, Cal., where he has an engagement to conduct a series of meetings."

Mrs. Strouse left Gainesville Monday afternoon, joining her husband in Jacksonville. From Jacksonville they will proceed to New Orleans.

MELROSE MINUETS.

Northern Visitors Departing—Basket Picnic—Other Local Items.

Melrose, April 21.—A basket picnic was held today at West Putnam by M. A. Fowler, and a fine time was had.

The first dewberries of the season were brought into town this week, and were eagerly bought up by our Northern visitors.

Dr. Frank McRae has returned from Gainesville, where he attended the meeting of the State Medical Association.

A general exodus of the Northern visitors and residents took place this week, and the balance are due to go North next week. From letters received it is evident a good many of the "early birds" wish they were back in Florida.

A rare and beautiful sight in town is a flowering Mountain Ebony (Bauhinjal), in the garden of H. von Nosky. It is twelve years old, but being a tropical plant, the cold cut it down every year, until the past warm winter allowed the blossoms to mature.

The wife of James Golden, one of our best colored citizens, died on Easter Sunday, aged 31 years. The funeral was very largely attended.

Miss Sadie Mullin made a trip to Palatka for a brief visit.

Mrs. W. Ackerman has returned from a pleasant visit at St. Augustine.

The house of Nelson Williams, one of our old-time darkies, was destroyed by fire a few days ago, together with its contents. Nelson found plenty of friends to start him up in housekeeping again.

JIM LEE WAS BAD.

Convicted on Four Charges and Sentenced to Two Years.

Deputy Sheriff J. H. Granger returned Monday from Dunnellon. He went for the purpose of taking Jim Lee, a negro, who was arraigned in Justice T. F. Henderson's court at Newberry the latter part of the past week upon four separate and distinct charges of larceny, and sentenced to six months each in the "gang" in each instance.

Lee was taken to the phosphate camps near Dunnellon, where he will be required to serve two years.

Half-Sick When your nerves are weak, when you are easily tired, when you feel all run down, then is the time you need a good strong tonic—Ayer's Sarsaparilla. Your doctor will tell you why it has such power over weak nerves, why it makes the blood rich, and why it gives courage and strength. Ask him if it is not just the medicine you need.

We have no secrets! We publish the formula of all our medicines. J. C. Ayer Co., Lowell, Mass.

WOMEN NOT TRUTHFUL

This Statement Has Been Unjustly Made, Because Modest Women Evade Questions Asked By Male Physicians.

An eminent physician says that "Women are not truthful; they will lie to their physician." This statement should be qualified; women do tell the truth, but not the whole truth, to a male physician, but this is only in regard to those painful and troublesome disorders peculiar to their sex.

It is a terrible ordeal to a delicate, sensitive, refined woman to be obliged to answer certain questions when those questions are asked even by her family physician. This is especially the case with unmarried women.

Is it any wonder, then, that women continue to suffer and that doctors fail to cure female diseases when they cannot get the proper information to work on?

This is the reason why thousands and thousands of women are now corresponding with Mrs. Pinkham. To her they can and do give every symptom, so that she really knows more about the true condition of her patients, through her correspondence with them, than the physician who personally questions them.

If you suffer from any form of trouble peculiar to women, write at once to Mrs. Pinkham, Lynn, Mass., and she will advise you free of charge.

The fact that this great boon, which is extended freely to women by Mrs. Pinkham, is appreciated, the thousands of letters received by her prove. Many such grateful letters as the following are constantly pouring in.

Mrs. Ella Lee, Frankford, Ind., writes: Dear Mrs. Pinkham:—

"I want to thank you for what your medicine has done for me.

"Three years ago I had a serious female trouble. I was under the doctor's care for about three months, and the only time I was not in pain was when under the influence of morphine. The doctor finally said I never would be better, and would be an invalid the rest of my life. I had given up in despair, but one evening I came across one of your advertisements and decided to write you for advice. I did so and commenced to take Lydia E. Pinkham's Vegetable Compound. I began to improve at once, and to-day I am a well woman, and I know it is all due to your advice and medicine."

Mrs. J. H. Farmer, of 2809 Elliott Avenue, St. Louis, Mo., writes:

Dear Mrs. Pinkham:—

"I cannot thank you enough for what your advice and medicines have done for me. They have done me more good than all the doctors I ever had.

"For the last eight years I have suffered with female troubles; was very weak; had nervous prostration, and could not do my work; but I am happy to say Lydia E. Pinkham's Vegetable Compound has made a different woman of me. I am in perfect health and have gained in weight from 98 to 123 pounds."

No other medicine in the world has received such widespread and unqualified endorsement.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass. She is the daughter-in-law of Lydia E. Pinkham, her assistant for many years before her decease, and for twenty-five years since her advice has been freely given to sick women.

POLITICAL FIRE TO BE KINDLED FRIDAY

Big Picnic and Meeting Will be Held at Trenton, West End.

ALL CANDIDATES ARE INVITED

The Good People of the West End Wil Congregate at Trenton and Welcome the Candidates, and Learn What They Have to Say.

A telephone message from Trenton, received at The Sun office Monday night, requested this paper to announce that there will be a big basket picnic and dinner at that place on Friday, the 27th inst., when all candidates are invited and expected to be present.

This meeting, it is announced, will take the place of the meeting which was to have been held at Jennings Lake on May 3rd.

This will be the opening of the campaign, and no doubt will be largely attended, as the people want to hear what the various candidates have to say.

THROUGH TRAIN SERVICE.

Service Proving Very Satisfactory as Well as Profitable.

The through train service, recently inaugurated by the Atlantic Coast Line, is proving most eminently satisfactory to the traveling public, and has already demonstrated that it will prove a great benefit not only to Gainesville, but to the great system as well. Already there appears renewed energy in the vicinity of the A. C. L. station, the station and grounds being crowded at the arrival and departure of every train.

Although the report has not been verified by the railroad authorities, it has been stated that the receipts of sale of tickets since the service was inaugurated has increased largely. At any rate, the service seems to please everybody, and as a result everybody is satisfied.

A Joint Invitation.

A joint invitation from the two Chapters U. D. C. has been extended to Stonewall Camp, U. C. V., and to Lew Wallace Post, G. A. R., to visit the cemetery and strew flowers on the graves of the heroes of the sixties on Memorial Day, April 26th. Committees from these four organizations will leave the band stand at 9 o'clock a. m.

EVERYTHING USEFUL

Nothing Ever Yet Created Without a Purpose.

We all wonder why certain things were ever made, why certain animals or insects were allowed to live. And yet there is no doubt that everything was created for some purpose, and as civilization advances, such purposes are discovered.

Cod liver oil is something that everybody knows to have been a wise provision of Providence, to be used as a medicine in all wasting diseases. Yet science has proven that the oil has no value either as a medicine or food—and while useful to the codfish only the medicinal elements which the oil contains are useful to man as a medicine. Therefore a separation must be effected.

This is exactly what has been done by two eminent French chemists. After twenty years of experimenting they succeeded in separating the medicinal curatives from the useless oil and grease and have given to the world in a concentrated form, all of the healing, strength-creating and body-building properties of cod liver oil, without the oil or grease to upset the stomach and retard its work, and by this process Vinol is made.

Our druggist, Mr. W. M. Johnson, guarantees Vinol to be a pure cod liver medicine, without the oil, and not a patent medicine, and also guarantees that Vinol will create a healthy appetite, cure stomach troubles, give strength and renewed vitality to weak, sickly children and to the aged, build up the run down, tired and debilitated, make the weak strong, cure chronic coughs, colds, build up the convalescent, or will return every dollar paid for it. W. M. Johnson, Druggist.

A NEW INDUSTRY.

La Matanzas Cigar Factory Puts Their Goods on the Market.

The Sun contained mention a few weeks ago that among Gainesville's new enterprises was a cigar factory, which had been established by H. S. Thomas, a practical cigarmaker of broad experience. This was a fact, and Mr. Thomas, with his force, has been busy ever since turning out fine cigars from the very choicest tobacco. He was delayed, however, on account of the failure of the box manufacturers to send him the necessary boxes to pack the goods, and again by the engraver, who was making a special label, being a picture of the elegant new University buildings, which are now being constructed.

The leading brand to be distributed by the La Matanzas factory will be the University of Florida. The goods have at last been placed on the market, and will be handled by a majority of the leading merchants and cigar dealers of the city.

The goods are "right," being made of the best material, and inasmuch as the people of Gainesville are loyal to everything of a progressive nature, especially the University, it is their duty to give this new cigar a show at any rate. If they do not like them, they are not compelled to continue the habit of buying them.

Mr. Thomas expects to employ a number of cigarmakers as the demand increases.

The ball game between the colored teams of Ocala and Gainesville at the park yesterday afternoon resulted in a score of 10 to 4 in favor of the local team. Another game will be pulled off this afternoon at the usual hour.

J. A. Walston, for the past few months the clever and efficient chief clerk at the Brown House, has gone to Wheeler-Bordon Springs, Ga., where he expects to remain during the summer. His friends hope to see him return next season.

Prof. W. N. Sheats has obtained permission from the school board to put a substitute in his place for ten days. He will leave on Wednesday on a tour of the county to renew old acquaintances. Prof. McBeath will act as principal of the school, assisted by Prof. Adkins as substitute, for Mr. Sheats.

Among the visitors to Gainesville is Edwin Roux of Plant City, who is a guest of his brother, Louis T. Roux. He is en route from Savannah, where he has been to attend the wedding of his son, Robert H. Roux, and Miss Alice F. Renshart. Mr. Roux made The Sun an agreeable call last night.

C. H. Buell, for the past two years an efficient operator in the employ of the Western Union Telegraph office, has resigned his position, and will be succeeded by Operator Clutts of Tampa. MALARIA AN INSIDIOUS FOE TO HEALTH

Malaria is an atmospheric poison which we unconsciously breathe into our lungs through the impure air arising from low, marshy places, stagnant ponds, damp cellars, sewer pipes, improperly ventilated houses, decaying vegetable matter, etc. Day after day these germs and poisons are taken into the lungs, and as the blood passes through them it becomes infected with the poison and in its circulation distributes the microbes of disease to all parts of the body. Malaria is a very insidious disease; it gives no warning of its coming until the circulation is filled with the poison and this foe to health has the system at its mercy. The blood becomes polluted, thin and weak and its slow, irregular circulation fails to properly nourish and strengthen the body. Then the entire system is attacked, and if the germs and poisons of Malaria are allowed to remain the strongest constitution will break down. No one can feel well when the system is in a malarial condition; the vitality is weak, the appetite poor, digestion deranged, the complexion grows sallow and the entire body feels the effects of the poison. Malaria must be removed from the system through the circulation and the only medicine that can accomplish this is S. S. S. It not only cleanses the blood of all unhealthy, morbid matter, but destroys the germs, cures Malaria and restores this vital fluid to a strong, healthy condition. S. S. S. is made of roots, herbs and barks combining purifying and tonic properties which keep the blood free of all poisons and the system in perfect condition. While destroying the germs of Malaria and building up the weak, polluted blood S. S. S. gives tone and vigor to the entire system. Book on the blood and any medical advice without charge.

The St. Petersburg Times is dishing up a very spicy single-column editorial page these days.

The Lakeland Sun is out for a Fourth of July celebration in that city, but it does not state whether it wants a quiet or loud kind.

The Inter-State Commerce Commission was all right when President Cleveland selected the members. It has never been itself since then.

With the good roads proposition and the Everglades drainage on hand, our home industries are commanding the attention of the people of Florida.

Miami wants a State board of trade, and if the local boards will only elect delegates to a meeting for that purpose it could be easily organized.

No less than half a dozen enterprising firms are already advertising for agents to sell "the only authentic book on the San Francisco calamity." Talk about enterprise!

Some of the candidates for the Legislature are stating their platforms they expect to "get in on," but not to "stand on." The man who is elected to the Legislature is supposed to represent his constituents.

The editor of The Miami Metropolis says he has no desire to go to the Legislature, as Tallahassee is a dry town. But he would make a good legislator if he would bring along some of that Miami hustle and instill it into that body.

Hon. H. H. McCreary of The Gainesville Sun is again back in the race for re-election to the State Senate. McCreary has long been a valued member of the body and his friends wish him well in his present contest.—Fort Pierce News.

We don't see why they need any more of a division in DeSoto county than they have at present. The people seem to be pretty well divided. All they need now is a couple more court houses and jails, and the division would be complete.

Up in Alachua county they say that Harry McCreary is running the Senatorial race like a "skeered rabbit;" that is to say, he is running 'em some. If the people of Alachua don't send Mack back to the Senate they are surely an ungrately set.—Tropical Sun.

The Apalachicola Times is of the opinion that William J. Bryan is a "dead duck." But he is the liveliest dead that ever skirmished in the Presidential duck pond, and his honesty of purpose stands out far in advance of many who are inclined to make light of so eminent a statesman.

Several fishermen at Kissimmee were arrested for using seine in the fresh water lakes of that section. The idea of arresting anyone for violating the fish laws!—who ever heard of such a thing? Certainly nobody over here, where fish laws are most needed.—St. Petersburg Times.] And there are many other places in Florida where the laws are ignored and fish are used for fertilizer.

BUCKMAN ANSWERS CRITICS.

In The Jacksonville Sun of Saturday the author of the Buckman school law has the following in answer to the papers which have criticised the measure:

"Editor Sun:

"Dear Sir—I notice an article cut from The Jasper News, entitled 'The Buckman Law in a Nutshell,' an attack upon that measure, which is entirely misleading as to its statements, and is evidently an endeavor to prejudice the public mind against the law which, as it has became more thoroughly understood and the effect of its operation more apparent, is being accepted generally throughout the State even by most of the counties which opposed its passage, as a most salutory measure and one which must tend to the lasting benefit of the State's educational system.

"This article styles the law as a means of 'oppression and robbery,' claiming that its sole object is to 'lay burdens on the industrial classes for the benefit of the rich,' and 'a system whereby millionaires' sons may be educated at the expense of the poor.' Such a statement as the above must have emanated from a very warped judgment, as it could hardly have been reached from a perusal of the law itself or an understanding of the conditions which existed before its enactment.

"In the first place, the act did NOT abolish any HIGH schools in the State. The article states that, but it is not a fact. The high schools are a part of the common school system of education which the State established, and which belong to each county. The institutions which were abolished were a set of so-called colleges which did not belong to any county, but which were supported by the State at an enormous expense. If there is any OPPRESSION in an EDUCATIONAL SYSTEM, it was under the old system, as there WAS no equality of taxation for their support for the reason that many of the counties in which these colleges happened to be located paid no tax, had no high schools of their own, as they could send their children to these institutions while the other counties paid for their support.

"The article further states that the object of the old Agricultural College was 'to promote the liberal and practical education of the industrial classes in the several pursuits of life.'

"This language is copied verbatim into the Buckman law, yet the writer probably never read that law, as he seeks to infer that that provision and purpose was abrogated with the abolition of the Agricultural College. It is true, however, that the Buckman law intended to create a university and a girls' college, and to prohibit the entrance into these institutions of children in the kindergarten departments who had not properly fitted themselves by previous study to enter upon a collegiate or university course, and this, instead of being an injustice, is an advantage. The State already has a system of public schools which consists of the primary department and the high school. The high school teaches to the twelfth grade. After that pupils may enter the university, and after going through the eleventh grade, pupils may enter the girls' college. It would be just as reasonable to assert that a child who is learning its A B C's was entitled to enter the high school as it would be to claim that a boy who was not prepared by previous course of studies should enter the higher branches which the university is intended to teach. There would be no necessity for a university, a girls' college, nor was there any necessity for the institutions which were abolished, if it was not intended to make them institutions of HIGHER learning. If it is the purpose of the State to cut off our boys and girls from an education above the high school education, then there is no use at all in having anything above the high school, but as it was the purpose, as expressed in our Constitution, to create a system of higher education, higher than the individual counties could give through the high school system already established, then the proper way to accomplish it was to concentrate funds and efforts to that end in one or two good institutions where these objects could be practically carried out, than it was to scatter them among eight or nine, as has been the case heretofore, at a much greater expense and with no appreciative result

"As the funds with which these old institutions are supported was derived from the same source as the funds with which to support the new institutions, namely, taxation, and the man who owns the largest amount of property must usually pay the largest amount of tax, it would seem a sufficient answer to the article in The Jasper News to say that if higher education was a luxury that only those who paid for it should be entitled to it, but notwithstanding the fact that the support of these institutions must come from taxation, a student can be admitted to either the girls' college or the university at an approximate less cost than he could under the old institutions, the cost of such admission being the very minimum at which the institute can be maintained and the system perfected.

"When the State gets to a position where it is either advisable or it is able to afford to give all its children absolutely free education in every branch of learning from the primary department to a thorough collegiate or university education, including their board, clothing, books and expenses while attending upon them, then all such institutions can be operated free of charge to the pupil; but until that is done the criticism is most inappropriate.

"The result of the operation of the Buckman law will have this effect: It will REQUIRE EACH COUNTY to have a HIGH SCHOOL of its own, which high schools, in addition to the money raised by taxation in the county, are supported in part by the State. At present a large number of counties have no high schools, and the children in them cannot get an education above the primary grade. As an example of what this law has already accomplished, Leon county has bonded itself for $100,000 to erect and maintain a high school. Previous to this time it sent its children, at the expense of the State, to the so-called college located in Tallahassee which the Buckman law abrogated to give place to a better."

An old toper in Pensacola who was offered a glass of water after taking his morning' morning, respectfully declined, saying that he was afraid to have anything to do with water, lest he might be arrested on the ground of being a receptacle for the propagation of the mosquito larvae.

These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root**, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Put Bullet Through His Heart.

Valdosta, Ga., April 23.—Washington J. Lineberger, a well-known farmer of this county, committed suicide Friday afternoon at his home 6 miles south of this city, by shooting himself through the heart. He was found dead by his daughter-in-law at 3 o'clock in the front yard of his home, with a loaded pistol by his side. Mr. Lineberger was about 75 years old, and one of the most highly respected citizens of the county. His mind had been somewhat impaired for some time, and his act is regarded as the result of mental aberation.

A Dandy For Burns.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommended it to my friends, as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c and $1. Sold by W. M. Johnson.

Filipino Town has Bad Fire.

Manila, April 23.—Fire has swept the town of Mariquina, in Rizal province. Many thousands of persons are homeless and starving. Two thousand dwellings are in ruins. The government is rushing assistance to the sufferers. Fire also destroyed Pasil near the town of Cebu. Two hundred dwellings were burned and many persons are homeless.

Thirty Were Injured.

Duluth, Minn., April 23.—Thirty laborers were more or less seriously injured here by the giving away of a trestle that connects ore docks of the Duluth, Mesabe and Northern railway. All of the injured were taken to the local hospitals. It is thought none will die.

Stomach and Liver Trouble Cured.

Orino Laxative Fruit Syrup cures stomach and liver trouble, as it aids digestion and stimulates the liver and bowels without irritating these organs like pills and ordinary cathartics. It cures indigestion and sick headache and chronic constipation. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

DIED WHILE ASLEEP.

His Life Blood Flowed While Johnson Slept.

Augusta, Ga., April 23.—It was in one of its most singular forms that death came upon H. P. Johnson, a mill hand, some time during the early hours Friday. Johnson, who lived at 6 Clark's alley, was found cold and rigid in a bed that was saturated with his life's blood, and investigation showed that the most ordinary precaution would have saved him. Just a bit of cloth or a pressure of his hand would have served to stem the crimson tide that welled from an ulcer in his leg.

From evidence brought out at the coroner's inquest it is believed that Johnson awoke to find that the ulcer, from which he long suffered, had begun to bleed and he tried to stop it with a piece of paper and then either fainted or returned to his slumbers.

The examining physician testified that had the man exercised any care at all the flow could have been stopped with little or no harm, but this Johnson had failed to exercise.

HEALTH IS YOUTH.

Disease and Sickness Bring Old Age.

Herbine, taken every morning before breakfast, will keep you in robust health; fit you to ward off disease. It cures constipation, biliousness, dyspepsia, fever, skin, liver and kidney complaints. It purifies the blood and clears the complexion. Mrs. D. W. Smith, Whitney, Texas, writes April 3, 1902: "I have used Herbine, and find it the best medicine for constipation and liver troubles. It does all you claim for it. I can highly recommend it." 50c. Sold by W. M. Johnson.

Making Object Lesson Road.

Anniston, Ala., April 23.—M. B. Wellborn, county commissioner, has been informed by Mr. Dodge, who has charge of constructing an "object lesson road" in Perry county, Alabama, for the United States department of agriculture, that he will be here within the next two weeks with the outfit and road engineers to begin work on the new county road from Anniston to Jacksonville. Mr. Wellborn has been very industrious in getting this government aid, and, through the influence of Congresman Bowie, this county has been given the preference over other sections who were ahead on the list.

The Richest Man in the World.

The richest man in the world cannot have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebannon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." J. W. McCollum & Co.

Is no worse than the terrible case of piles that afflicted me 10 years. Then I was advised to apply Bucklen's Arnica Salve, and less than a box permanently cured me, writes L. S. Napier of Rugles, Ky. Heals all wounds, burns and sores like magic. 25c at all druggists'.

Ohio Boy Killed.

Petersburg, Va., April 23.—Floyd Rahmy, aged 18 years, son of Samuel Rahmy, of Dinwiddie county, was crushed to death by a horse he was riding falling on him. Rahmy came here with his parents from Findlay, O.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering, for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. To the Democratic Voters of the Eighth Judicial Circuit of the State of Florida:

Having served you in the capacity of State Attorney since July, A. D. 1903, and trusting that you have approved of the manner in which I have represented the State and discharged my duties, I solicit your votes at the coming primary for the position of State Attorney for the Eighth Judicial Circuit.

Very respectfully,

Palatka, Fla. BENJ. P. CALHOUN.

I respectfully announce that I am a candidate for the office of State's Attorney for the Eighth Judicial Circuit of Florida, composed of the counties of Alachua, Baker, Bradford, Levy and Putnam. I conceive the faithful and energetic discharge of the duties of the office to be a sacred obligation to the State, and, if the voters of the circuit favor me with the nomination, I pledge them that the interests of the State and of society shall not suffer through favor or negligence of mine.

THOS. W. FIELDING.

Starke, Florida.

For State Senator.

To the Democratic Voters of Alachua County:

I have, on various occasions, been earnestly requested to enter the race for State Senator from this county, and, until now, have declined to do so, because I had no desire to oppose the Honorable H. H. McCreary, who has rendered such valuable service to our county in the State Senate. But since he has withdrawn from the race I will be a candidate, subject to the Democratic primary.

Having served in both branches of the Legislature in the past, I feel that I am the better qualified to serve the best interests of our county at this important time.

Earnestly soliciting your support at the coming primary, I am your humble servant.

JOHN B. DELL.

In reference to my declination, which appeared in The Daily Sun of Mch. 20th, the same was made in what I conceived the interest of harmony. However, I have reconsidered same and am a candidate for the State Senate.

H. H. McCREARY.

I respectfully announce my candidacy for the Democratic nomination as Senator for Alachua county (33d district), pledging my support of all measures in the interest of the masses as against the classes, and especially do I pledge my support and influence in aid of the common schools and maintenance of the State University upon a liberal basis such as will enable parents to obtain for their children thorough education in their own State, as well as all measures tending to promote the religious and moral welfare of the entire people. Thanking my friends for their support in the past, and soliciting the vote of all Democrats at the coming primary, I am very respectfully.

H. H. McCREARY.

For the Legislature.

At the solicitation of many friends I have consented to make the race for the Legislature and hereby announce myself as a candidate, subject to the Democratic primary.

WM. N. SHEATS.

In response to the solicitations of many friends I respectfully announce that I will be a candidate for the Lower House of the Legislature, subject to the Democratic primary. If elected I promise to do all in my power to protect the best interests of our beloved county. Respectfully.

THOMAS A. DOKE.

I announce myself a candidate for the Legislature at the coming primary, subject to the action of the Democratic voters of the county. If elected I will endeavor to make some very radical changes in the present divorce law. I am in favor of keeping the State University at Gainesville forever.

Alachua, Fla. CHAS. HODGE.

At the solicitation of friends I announce myself a candidate for Member of the House of Representatives, subject to the will of the people, as expressed at the Democratic primary election.

I shall favor the maintenance of the State University, now established in this county, with liberal appropriations for its development, and the advancement of public education throughout the State.

I believe in a Railroad Commission and shall support any legislation enlarging its powers and increasing its usefulness.

All measures tending toward the moral development and growth of our State will receive my hearty support.

ROBT. E. DAVIS.

S. L. Carter will be a candidate at the primary election for Member of the Lower House of the Florida Legislature.
